

upcoming seminars:

| | | |
|-------------------|--|--|
| 10.10.2023 | Denise Zickler Université Paris-Saclay | The multiple facets of Hop1 during meiotic prophase <i>Host: Verena Jantsch</i> |
| 24.10.2023 | Kirsten Bomblies ETH Zürich | How to tango with four - the evolution of meiotic chromosome segregation after genome duplication <i>Host: Verena Jantsch</i> |
| 14.11.2023 | John R. Weir Friedrich Miescher Laboratory, Tuebingen | Modulating DNA repair in meiosis <i>Host: Joao Matos</i> |
| 05.12.2023 | Andrea Pichler ETH Zürich | SUMO rules <i>Host: Peter Schlögelhofer</i> |
| 23.01.2024 | Jiri Forejt The Czech Academy of Sciences, Prague | <i>Prdm9</i> control of meiotic synapsis of homologs in intersubspecific hybrids <i>Host: Irene Tiemann-Boege</i> |
| 13.02.2024 | Bernard DeMassy CNRS/Université Montpellier | Programmed DNA double-strand breaks during meiosis: Mechanism and evolution <i>Host: Joao Matos</i> |
